DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is narrative and functional. Claim 1 also lacks reciting the necessary structure to accomplish the function of sensing whether the gas pressure within the gas pipe is varied with the compared result. It is noted that the recitation of "for comparing gas pressure varied within a closed gas pipe" in line 2 of claim 1 is considered a suggested use. It is also not known from the recitation in claim 1 where the normal pressure space containing the reference normal pressure is disposed within the gas safety valve.
